+639282109404 • [linkedin](#) • [github](#) • [behance](#)

As a self-taught developer with a passion for coding, I have spent the past 2+ years mastering the MERN stack (MongoDB, Express.js, React, Node.js), building a strong foundation in full-stack web development.

**Web Technologies**

HTML5, CSS3, JavaScript, Sass, React, MongoDB, Firebase, Github, and ServiceNow

**Tools & Apps**

Filezilla, Git, VSCode, Photoshop, Illustrator, Figma, and XD

**EMPLOYEMENT**

**Application Developer** • *Jun 2023- Jul 2024 • 1yr 2mos*

**Accenture**

Accenture is a global professional services company that provides a wide range of services and solutions in strategy, consulting, digital, technology, and operations. **My role mostly related to the platform, ServiceNow (EBonding, AI Search, REST, Employee Center, Service Portal and SLA, then shifted to projects using technologies like React, TailwindCSS, MongoDB and Firebase.**

**Illustrator & Concept Artist** • *Apr 2022- May 2023 • 1yr 2mos*

**RipeConcepts, Incorporated**

RipeConcepts is a digital creative arm of Nagarro, is a leading expert in digital product engineering. My role as an illustrator is to create illustrations needed for their clients.

**Junior Web Builder** • *Feb 2017 - Apr 2018 • 1yr 3mos*

**CML, MOPRO Philippines, Incorporated**

Mopro is an information technology company that creates web development solutions for small and large-scale businesses. Technologies that I used were **HTML, CSS, Bootstrap**, and **React** to create single and multiple pages for client websites.

**Graphic Illustrator** • *Aug 2011 - Jun 2015 • 3yrs 11mos*

**Author Solutions, LLC**

Is a self-publishing company that helps independent authors publish their stories. As a graphic illustrator, I was responsible for doing interior illustrations and graphical elements for a book project.

**Web & Graphic Designer** • *Dec 2010 - Jun 2011 • 7mos*

**DNA Micro, Incorporated**

DNA Micro is a software development company that is dedicated to building scalable web and mobile applications. My role within the company was to design UI interfaces using **Photoshop, Dreamweaver**, and **Illustrator** needed for the web and mobile development teams as well as code the front-end template of a given project using **HTML, CSS**, and **Bootstrap**.

**TECHNICAL PROJECTS**

**Products to Cart** • [Source Code](#) • [Live Project](#)

**E-commerce Homepage with Vanilla JavaScript & Contentful**

An E-commerce front-end page project where we can add items to the cart. The activities done on this page are stored in LocalStorage. I used Contentful for the data but at first, it was just a static JSON file.

**Testimonial Component** • [Source Code](#) • [Live Project](#)

**A Carousel Component with Vanilla JavaScript**

A dynamic and responsive testimonial component where we can slide right or left and remain on the current slide upon browser resize.
