## SUMMARY

Creative frontend developer with experience in **React**, **TypeScript**, **Tailwind**, **JavaScript**, CSS3/SASS/LESS, and design-to-code workflows. For development and deployment, I use **VSCode**, **Git**, **Netlify**, and **Vercel**. When it comes to design, I use **Photoshop**, **Illustrator**, **Figma** and XD. I also have an extensive background in **Illustration** and **Concept Art**.

## AI TOOLS

I also use **AI tools** to improve my efficiency like, **ChatGPT**, **Cursor**, **Bolt**, **Gemini**, and **Deekpseek**.

## PROJECTS

**Caldwell Boat Rental Website**
Live | GitHub
A responsive speedboat rental website built with React, Vite, TypeScript, JavaScript, and Tailwind CSS. Inspired by a real client project, reimagined for learning and portfolio use. Designs were created using Figma and Illustrator.

**Design Pro Dashboard**
Live | GitHub
A re-created dashboard frontend built with React and Tailwind CSS to refresh skills. Uses data.js to populate content and includes login/logout via React Context API.

**Vegeburg Web Template**
Live | GitHub
A responsive web template for plant-based restaurants, built with React and styled using SASS. Originally created for a client on Upwork and recreated for learning purposes.

**Kenstore eCommerce Template**
Live | GitHub
Built an eCommerce product and cart page with React and SASS, loading dynamic content from JSON and managing UI state for cart interactions.
