# TECHNICAL PROJECTS

#### Caldwell Boat Speedboat Rental Website • *Source Code* • *Live Project*
Caldwell Boat, is a modern, responsive speedboat rental website built with React, Vite, and TailwindCSS. This project is inspired by an actual client project I worked on last year, re-designed for learning and portfolio purposes.

#### Design Pro Dashboard• *Source Code* • *Live Project*
This project was based from a dashboard web app project I did for my client. I had to recreate this to refresh myself in using Tailwind CSS with React.

#### VegeBurg Vegan Website • *Source Code* • *Live Project*
VegeBurg is a sleek and responsive web template designed specifically for vegetarian and vegan restaurants, health food cafes, or any establishment promoting a plant-based lifestyle.
