PROJECTS

Caldwell Boat Rental Website
Live | GitHub
A responsive speedboat rental website built with React, Vite, TypeScript, JavaScript, and Tailwind CSS. Inspired by a real client project, reimagined for learning and portfolio use. Designs were created using Figma and Illustrator.

Design Pro Dashboard
Live | GitHub
A re-created dashboard frontend built with React and Tailwind CSS to refresh skills. Uses data.js to populate content and includes login/logout via React Context API.

Vegeburg Web Template
Live | GitHub
A responsive web template for plant-based restaurants, built with React and styled using SASS. Originally created for a client on Upwork and recreated for learning purposes.

Kenstore eCommerce Template
Live | GitHub
Built an eCommerce product and cart page with React and SASS, loading dynamic content from JSON and managing UI state for cart interactions.
